

IDENTIFICATION PROCEDURE: The diagram and written description must agree and must be sufficiently details to ensure the positive identification of the animal. White markings must be shown hatched in RED biro and ALL boxes must be completed using black ink in block capitals or typescript. If there are no markings, this fact must be stated in the written description. Please do not leave any empty boxes. All head and neck whorls must be marked (X) and described in detail. Other whorls should be similarly recorded in Grey's and animals lacking sufficient distinguishing marks. Acquired marks (V) and other distinguishing marks e.g. prophet's thumb mark (+), wall eye should always be noted. Please always state the base coat colour in Skewbald animals, i.e. bay, chestnut, brown.
