

The Celtic Warrior

BSPA Stallion of the year 2006

13.2 hh TRADITIONAL COB PONY

Nelson is a pony of outstanding quality with unbelievable substance. He just flows from his neat head with small ears and king eye through a good length of rein to a short back with great width and depth. Set onto well sloped shoulders, incredible front and powerful well rounded muscular quarters over great legs with 10.5 inches of flat bone, a real power pack topped off with tonnes of silky feather, clean fluid movement and a temperament and character second to none.

He ran with gypsy mares until September 05 when we found him. Since then we have enjoyed a rollercoaster ride taking him from his wild, natural state to preparing him for grading in November the same year. We had the privilege of accompanying him on the launch of his show career, qualifying for BSPA winter champs at this first show and standing first reserve champion going on to win at Keysoe 06 and winning or highly placed since culminating in him becoming Stallion of the year in August at the World Championships of colour. In 07 allowing for weather he is having an equally good year.

To his credit all his ladies this year have scanned in foal on first covering proving him to be highly fertile. Photographs of his babies can be seen.

Fee £350 – N.F.F.R
Livery details on request
